

For more than 50 years we've been
leading the way in temperature
measurement excellence.
Here's to the next 50...

Labfacility Through the Years

In 2021 we celebrated a milestone 50 years in business – here are some of the many highlights along the way...

Who are we?

Mighty oaks grow from little acorns...

From small beginnings in 1971, Labfacility has grown and evolved into the UK's leading ISO 9001-accredited manufacturer and supplier for the complete temperature chain. From Temperature Sensors, Thermocouple Connectors and Cabling to supporting instrumentation and components, we are the GO-TO people for temperature measurement products.

“ We're passionate about providing an exemplary service to our customers. ”

Martin Riddett, M.D.

Exporting directly to over 85 countries around the globe and distributing to many more, Labfacility products are the No.1 choice for temperature measurement across a multitude of industries. Central to our success is a highly experienced sales team providing free expert technical advice and support, plus our extensive range of stocked products and short lead times put us well and truly ahead of the pack.

“ The one-stop source for quality temperature measurement gear. ”

Trustpilot customer review

To sustain longevity, you have to evolve...

What do we do?

A wide and ever-expanding inventory with cutting-edge technological products and first-class technical support...

Innovative technologies abound at our UK manufacturing hub in Dinnington, South Yorkshire. A state-of-the-art 18,000 sq ft plant is home to a team of more than 25 dedicated to the design and build of bespoke temperature sensors. Alongside this we stock an extensive range of Thermocouple Connectors and associated temperature instrumentation, plus Thermocouple Cables and a wide range of components and fittings for sensor installation. The complete temperature chain package.

Ask the experts...

Our sales team goes above and beyond to provide swift, expert technical advice and support for sensing and instrumentation as and when YOU need it – help is freely available. And there's a handy range of Product Guides and our comprehensive Temperature Handbook available to download at www.labfacility.com.

Our Sales Team has a mass of experience, plus they're approachable and reliable – just one of the reasons major PLCs and international industry leaders like working with us. Rest assured, you're in safe hands and not just when it comes to support and advice...

Integral to our success and a key part of the Labfacility community is our global distribution partner Farnell. With headquarters in Leeds, UK, they offer unparalleled customer service, impressive technical resources, extensive stocks and express delivery, making them the ideal choice for us.

“ Quality and customer experience are at the heart of everything we do... ”

Who do we work with?

We're trusted by major PLCs and worldwide distributors alike. Labfacility products are exported daily to over 85 countries including Australia, China, India, mainland Europe and the Americas...a truly global reach. We meet the temperature measurement needs of a vast range of industries from engineering, agricultural, automotive and brewing, to cold chain, pharmaceutical, plastics, and medical, to name but a few.

Here's what some of our clients have to say about working with us...

“ Excellent and easy website, simple ordering, and immediate shipment – and I mean immediate. Shipped within 30 minutes of ordering. It doesn't get better than that. ”

“ Great customer service. Answered all of my questions in a timely and helpful manner. Shipping was also fast. ”

“ They are very helpful, and the delivery was very fast. You can trust them 100%. ”

“ I am a long-time user of Labfacility thermocouple products, and they have never let me down. ”

“ Good Service. Good product, fair price and delivery on time. What more could you ask for? ”

“ The quality of the products is very, very good. There is nothing negative to say. ”

“ Perfect service. Easy website and great delivery. Will be using all the time. ”

Labfacility Ltd

Excellent

★★★★★ 4.9

VERIFIED COMPANY

Put your trust in us (thousands do)

Our products in a nutshell...

Labfacility manufacture a wide range of temperature sensors to suit your application. A large range of Thermocouples in IEC, ANSI and JIS calibration, PRT's, Detectors, Environmental Sensors and Hand-Held Sensors/ Thermometers are available to buy, for immediate despatch, from www.labfacility.com

“ They have the best thermocouple wire and a variety of connectors not found anywhere else. It kinda sucks that they are located in the UK, but the shipping has always been on time! ”

Trustpilot customer review

Thermocouple Connectors △

We are Europe's largest manufacturer of thermocouple connectors and accessories in IEC, ANSI and JIS Colour codes. The full range of connectors is available from stock for immediate despatch.

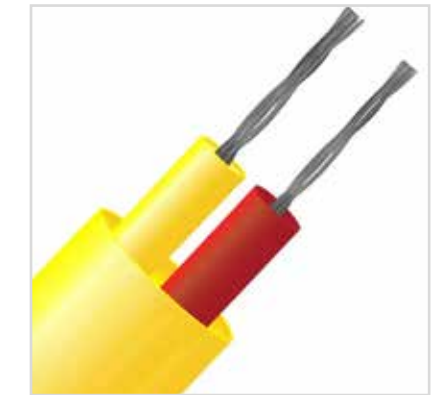

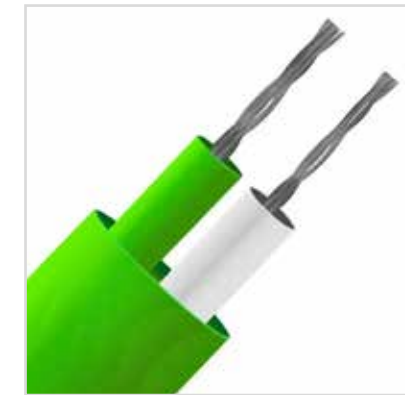

Thermocouples and PRT Sensors ▽

Labfacility manufacture an extensive range of thermocouple and PRT temperature sensors. Thermocouples include Exposed junctions, Mineral Insulated, Surface, Hermetically sealed and Handheld probes. PRT Sensors include Industrial head sensors, Stick-on patch sensors, Autoclave and M12 industrial automation temperature sensors.

Thermocouple Cable/ Wire

We offer a wide range of thermocouple, PRT and extension cable/wire in stock for immediate despatch. Thermocouple cables are available in IEC, ANSI and JIS Colour codes. Insulation types include PFA, PTFE, PVC & Fiberglass.

L60 Thermocouple & Fine Wire Welder

The Thermocouple Welder, manufactured by Labfacility, is a compact, simple-to-use instrument designed for thermocouple and fine wire welding.

In-House Calibration

Traceable to ISO17025 (UKAS) calibration standards, Labfacility offers a choice of a 3 or 5 point traceable calibration: using our in-house calibration facility, you can select any temperature points between -10°C & +200°C.

RTD Detectors

A selection of Flat Film RTD Detectors; 100, 500 & 1000 Ohm in class A, B or 1/3 DIN. A selection of 100 Ohm RTD Wire Wound Detectors, single and dual element types available in class A, B or 1/10 DIN.

Why choose us?

10 good reasons why it makes sense to choose Labfacility

- ▶ Expert technical product advice when you need it
- ▶ 1500+ Labfacility products available via Farnell/Avnet worldwide
- ▶ Short lead times – get your product when you want it
- ▶ Approachable and reliable (not to mention friendly)
- ▶ Extensive range of products stocked
- ▶ Global reach via www.labfacility.com
- ▶ State-of-the-art manufacturing capabilities
- ▶ Excellent Independent Trustpilot Reviews
- ▶ A strong new product introduction programme
- ▶ More than half a century's experience in our field.
